

Edmontonian Says Good Prospects Wetaskiwin as a Great Industrial Centre

Geo. H. Van Allen, President of Capital City Board of Trade, Addresses Local Organization—Other Visitors Also on Program—C. F. Pennington Introduces a Poser Re Draft Horses

About twenty-five members of the Edmonton Chamber of Commerce, headed by Geo. H. Van Allen, President, and John Blue, Secretary, attended the monthly luncheon of the Wetaskiwin Board of Trade on Monday evening, and had charge of the program. President Richard Ballhorn presided, and considering the farmers' busy season, there was a very good attendance of local members.

C. F. Pennington asked a question. If anyone present knew the standard of draft horses in Alberta, and as no one could answer this, the matter was referred to the Agricultural Committee to be taken up with the Provincial Department of Agriculture.

Ed. Mason took occasion to ask the visitors what the city of Edmonton proposed to do in the matter of licensing trucks this year. He stated that he and a number of others had to either pay fines or get licenses from the city of Edmonton last year, and he thought this was not good business on the part of the capital city. After a number had spoken on this subject, the visitors gave their assurance that this matter would be rectified upon their return home.

Mr. Van Allen gave the address of the evening. After conveying the greetings of the Edmonton Chamber of Commerce to the Wetaskiwin Board of Trade, he stated that the Edmonton Chamber of Commerce was this year celebrating its fortieth anniversary and he briefly referred to some of the things which his Board had accomplished in furthering several matters for the general welfare of central Alberta. Edmonton was one of the five key cities in Canada and would not be losing them to other countries. The Chamber of Commerce invites the commercial centres of central Alberta to co-operate with them in solving the many problems of mutual interest which arise from time to time, in the central part of the province. Among the major problems being handled by the Chamber of Com-

merce were the development of aviation which will be a big factor in the transportation of both freight and passengers in the near future, and the old question of transportation both by railroads and trucks. In the near future, aviation would have a very great bearing on the welfare of Wetaskiwin. The taking over of the Northern Railway by the Canadian Pacific and the development of the vast Peace River district and affords Edmonton a wonderful opportunity to become one of the foremost commercial cities in Canada. With cheap coal and electric energy being supplied at a very low cost, the towns and cities of central Alberta should do everything possible to procure manufacturing institutions.

We must have a payroll if we are to develop as the towns and cities have done in eastern Canada. Up to the present, Western Canada has been a country of farmers, shop keepers and branch managers, but the day has arrived when we should branch out and get manufacturing concerns. When Edmonton has a population of 250,000 as undoubtedly it eventually will, it will become the natural market for all the produce that can be raised in the Wetaskiwin district, and this would assure a good price to all the producers. All industries do not go to the big centres and Mr. Van Allen thought Wetaskiwin had good prospects to become an important industrial city. He advised the Board of Trade to endeavor to get manufacturers to locate here. Manufacturing plants would give opportunity and employment to young people and we of the five key cities in Canada and would not be losing them to other countries.

Stewart Campbell rendered a number of solos which delighted the visitors. John Blue, the versatile secretary of the Chamber of Commerce, humorously introduced the visitors from Edmonton, and Howard Stutchbury, Alberta's Coal Commissioner, led the community singing, as well as giving a short address.

Celebrate 24th of May Here With Athletics in Afternoon

For the first time in many years, Wetaskiwin will celebrate the twenty-fourth of May, the occasion being the holding of the Juvenile and Midget track and field championships of the city for boys and girls under 14 years of age and under 12 years. The Wetaskiwin Sports Association and the newly-organized Ladies' Amateur Athletic Club of Wetaskiwin are jointly staging this event. For the past two years the Sports Association has conducted the Junior Track and Field Championships of the city, and this year, for the first time, the younger element are to decide four champions. There will be other sports on the program, and it is quite possible that arrangements will be made before the week-end to provide the people of the city and district with a real thriller.

Roger Paton an Alberta Scout Selected for Jamboree Overseas

Roger Paton has been successful in eliminating competitors and is to be the representative from this district, one of a party of six Scouts to represent Alberta in the Scout Jamboree to be held at Birkenhead, England, in July next. This Jamboree is a meeting of the Scouts of the world, brought together for the purpose of meeting one another and mingling together in sports and scouting work. It has been possible to send these boys from Canada through the generosity of the Governor-General, who gave \$25,000 so that Canada might be represented by sixty-four Scouts, being two full troops, at this great meeting of the Scout movement. An International Jamboree is held every ten years and up to the present this gathering has always been held in England. The twenty-first birthday of Scouting, land. The meeting this year celebrates it is expected that 30,000 Scouts will assemble from all parts of the world, and in addition there will be another 30,000 Scouts from Great Britain. They will be in camp for two weeks. Roger will leave about the 6th of July and will be away a month and a half. He will spend a week in Ottawa training, where all those going from Canada will receive complete new uniforms and equipment and they will

then be organized into troops and appointments or troop leaders and patrol leaders will be made.

During the time he is away he will have ten days' travel through England and Scotland, all his expenses both for uniform and travel being defrayed out of the fund so generously given by our Governor-General. Roger is a First Class Scout, with proficiency badges and merits well known to all. He is particularly good in leadership and commands the loyalty and respect of his troop. They all rejoice in the fact that he has won this distinction. His success may be said to be attributed to the fact that in leadership he does not do so in an overbearing way, but in what might be well termed a scoutly way. He is very persistent and it is through this quality that he has been able to pass the tests that were required, and it is through work done in Scouting during the last year that he improved himself so that it was possible for him to gain this honor. Roger won out in competition with boys from Red Deer, Camrose, Leduc, Lacombe and Ponoka.

Rev. P. C. Wade has been the Scout Master since he came to our city about fifteen months ago, and his command (Continued on page 6)

Mother's Day Sunday, May 12th

Sunday, May 12, will be Mother's Day. Observance of the second Sunday in May as a day specially set aside in honor of motherhood, has been adopted in the United States and Canada since 1910. Miss Anna Jarvis, of Philadelphia, in a public meeting in that city crystallized the sentiment now back of this observance with the words: "In honor of the best mother that ever lived—your mother." and the popularity of the idea has now extended throughout the country.

The wearing of a colored flower in tribute to mothers who are living, and of a white one in memory of those who are dead, is the outward symbol of recognition of the every which is further observed by special services in churches of all creeds. Originally the white carnation was the flower favored as a mark of participation to this nation-wide tribute to mother, but blossoms of all kinds are now worn in honor of the day.

WEDNESDAY'S BLAZE THREATENS WETASKIWIN

The Wetaskiwin fire brigade had a busy time Wednesday afternoon when they were called after to extinguish a fire which started in D. W. Wark's barn in the southern part of Wetaskiwin. It is suspected that children playing with matches in the hayloft started the conflagration. The flames soon broke out and ignited the barn of Wm. Mellett, adjoining, and about the same time the warehouse owned by Mr. Mellett was also ignited. The flames from these three buildings made a very hot fire, and for a time buildings in that vicinity were threatened, and it was only through the determined fighting spirit of the brigade that the fire was confined to the three buildings, as a strong wind was blowing at the time and burning embers were carried for some distance. A quantity of plumbing tools were in the warehouse at the time and they are a complete loss. The brigade is deserving of the highest praise for the way in which they handled this fire, as the blaze made it very hot and it was difficult to get close to the fire.

The damage is estimated at \$1500 and only a small insurance was carried.

FORM SWINE CLUB IN CAMROSE WITH FULL MEMBERSHIP

Camrose, May 2.—A swine club with the necessary minimum number of twenty members has been organized for the Camrose district, and it is expected that the initial number will be materially increased in a short time. The government has supplied the requisite number of the right type of hogs.

It was launched through the efforts of the local U.F.A. Recently G. S. Black, supervisor of boys' and girls' clubs of the province, wrote asking for a survey of the various school districts in the Camrose School Fair Association territory to ascertain the number of boys and girls interested.

District Convention of W.C.T.U. for Central Alberta Well Attended

The Seventeenth W.C.T.U. Annual District Convention of Central Alberta met in the United Church, Wetaskiwin, May 2nd and 3rd.

Seventeen delegates registered, and the Devotional exercises were taken by Mrs. Reiber of Didsbury. The President's address showed some of the difficulties encountered in introducing temperance education and organization into some communities in this new country, but the reports generally gave cheering facts. Didsbury with a membership of sixty organized four unions during the year. Resolved, that each Union endeavor to organize one during this year. The sum of \$747 has been taken into the District Treasury during the year.

A Round Table Conference "How to Reach Surrounding Towns and Hamlets with a Speaker," was conducted by Mrs. Gaetz of Red Deer, who gave an excellent paper on the subject.

Mrs. McKinney, Provincial President, then conducted a Parliamentary drill. At 6 o'clock a banquet was served. (Continued on page 5)

Weddings

HAYS-PEARSON

A wedding of far-extended interest was solemnized at the Manse, Wetaskiwin, on Thursday, May 2, at 4 p.m., when John Keith Hays and Ethel Mary Pearson, both of Edmonton, were united in holy matrimony. Mr. Hays is from Aberdeen, Scotland, and is operating the "Jack Hays Taxi Cab" business in Edmonton. Miss Pearson is very well and most favorably known in Wetaskiwin, where she resided with her parents prior to going to Edmonton.

Rev. A. L. Elliott was the officiating minister and the ceremony was witnessed by Mr. and Mrs. Alexander Sims. Mr. and Mrs. Hays left by motor car for a trip to Calgary, Banff and other points of interest in the mountains. On returning they will make their home at 11131 98th Ave., Edmonton.

ODDFELLOWS AND REBEKAHS HOLD ANNIVERSARY SERVICE

The Oddfellows and Rebekahs of Wetaskiwin and district celebrated the 110th anniversary of the founding of the Order on the continent of America on Sunday last, by attending church services. The members assembled at the hall and paraded to St. Andrew's Presbyterian Church, where an excellent appropriate sermon was preached by Bro. L. B. Macdonald of Millet. The subject of the address was "Friendship," and he based his remarks on the Covenant between Jonathan and David. Rev. J. Davey assisted in the services, and the choir, led by Mrs. Boye, rendered a beautiful anthem. Stewart Campbell also sang a solo.

After the service, the members returned to the Oddfellows' hall, where refreshments were served, and an enjoyable social hour was spent with the visitors who came from Ponoka, Millet and other lodges.

On Sunday next, the Oddfellows and Rebekahs of this community intend to visit Millet Lodge, when the Millet Brothers will celebrate the anniversary.

STORMS CAUSE LOSSES IN MANY ONTARIO AREAS

Toronto, May 4.—Wind, rain, snow and generally unseasonable weather prevailed over the greater part of Ontario yesterday, causing thousands of dollars of damage on land and interfering with shipping on the Great Lakes. Rivers were over their banks at a number of places and further damage is feared from rising water.

Property on the shores of Lake Erie, Lake Ontario and Lake St. Clair has been damaged, many summer resorts reporting cottages ruined. Lake Ontario at Oakville is reported at the highest stage for a decade. St. Catharines experienced a miniature cloud-burst that flooded cellars. The Huron River at Toronto has spread over its banks and flooded flats, while the Don River is at a new peak and, with continued rain, may overflow. Railway traffic has been disrupted by wash-outs.

Arbor Day was quietly observed in town. Some of the citizens planted trees, cleaned up the premises and worked in the garden.

Ladies' Amateur Athletic Club Organizes and Seeks Stage Women's Meet Here

Will Be Actively Allied With Sports Association in Athletic Venture—Taking Initiative Towards Formation Alberta Branch of Women's Amateur Athletic Federation of Canada

Sponsored by the Wetaskiwin Sports Association, the Ladies' Amateur Athletic Club of Wetaskiwin came into being at a meeting held in the council chamber at the city hall on Friday evening last. The Constitution drafted and adopted at the meeting declares that the objects of the Club are: The improvement, promotion and regulation of athletic sports among the gentler sex in the city and district, with particular attention to track and field athletics, basketball, softball and other "team play" games; the encouragement of track and field athletic sports in the schools and the proper coaching and training of athletes following their initial development.

Vice-President Bellamy and H. E. Chalmers of the Wetaskiwin Sports Association, addressed the gathering prior to organization. They explained that the Amateur Athletic Union of Canada and Women's Amateur Athletic Federation of Canada had signed articles whereby the latter body is now recognized as being the parent body of women's organized athletics throughout the Dominion, but that to date no provincial Branch had been instituted in Alberta. It was pointed out that the Wetaskiwin ladies could render an outstanding service of a provincial nature by paving the way for the organization of such a provincial body, and the suggestion was made that if arrangements could be made to have the Women's Championships of the province decided in this city this year, opportunity would present itself for the formation of a provincial Branch of the W.A.A.F. of C. here at that time. The Wetaskiwin Sports Association would give moral and financial assistance to the proposed new Club; in fact, it was the proposal that the Club be allied with the Sports Association.

The suggestions made by the above named speakers met with instant favor, and with the adoption of a Constitution the new club took unto itself a name.

Officers were then elected as follows:

Honorary Patrons—Mrs. H. J. Montgomery, Miss O. Boon, Mrs. C. D. Gunnar and Mrs. H. E. Chalmers. Honorary President—Mrs. F. Chiddy.

Honorary Vice-Presidents—Mrs. Curt Smith and Mrs. H. W. Wright. President—Mrs. J. A. Rodell. 1st Vice-President—Mrs. B. W. Bellamy.

2nd Vice-President—Miss Norma Chiddy. Secretary-Treasurer—Miss M. Henderson.

Executive Committee—The president, vice-presidents, secretary-treasurer, and Mesdames V. C. French, R. W. Manley, B. Bidingler, W. Chappell, E. Schram, H. Lee, C. B. McMurdo and A. Knox.

The Club endorsed the proposal of officials of the Sports Association that local junior, juvenile and midget track and field championships be held this year, the President, Second Vice-President and Secretary-Treasurer being selected as a committee to arrange with a committee of the Sports Association for a program of events on May 24th to decide the juvenile (under 14 years) and midget (under 12 years) championships, and arrange for other attractions.

The Constitution provides that the Club shall be allied with the Wetaskiwin Sports Association and the W.A.A.F. of C. through the creation of an Alberta Branch, respecting at all times the principles of amateur competition as laid down by said Federation. The Club recognized the Wetaskiwin Sports Association as the controlling body of amateur sport in the city and district.

The Sports Association is requested to select an Advisory Committee from their organization to meet with officers or committees of the Club when occasion arises.

The management of the Club is delegated to the executive committee. (Continued on Page 6)

New Co-operative Creamery Association Organized Here

The dairy producers of the Wetaskiwin district at a meeting held on Saturday, April 27, completed the organization of a Co-operative Creamery Association, and appointed the following directors:

E. R. Rasmussen (President), Geo. Waterson, Thos. A. Angus, J. R. Rickard and Wm. Milton, the secretary to be H. A. Inglis.

The Association is similar to that of the Okanagan Valley Co-operative Creamery Association which has proven very successful, last year paying \$10 on every dollar of revenue to the producers.

The Association is leasing the plant and equipment of the Wetaskiwin Creamery Company, Limited, and will manufacture their own butter and

cheese and carry on the city milk distributing branch of the business.

Wetaskiwin is noted as the best local cream producing district in the province, and this fact makes it possible to operate more economically than points where high express rates make up a large share of the expense. The Wetaskiwin Creamery Company, by reason of the high quality of the cream and milk of the district, has a very enviable position as far as quality of its products is concerned, and it is the object of the association to endeavor to improve the quality to a greater extent, thereby obtaining still better returns for their patrons.

The Wetaskiwin students who have been attending the University of Alberta, returned home last week.

Grade XII. Winners of Debate and Now Hold Kiwanis Trophy

The Kiwanis Club of Wetaskiwin and the School Board made it possible for the High school students to enjoy an interesting program on Friday afternoon. Owing to lack of space the students have not been able to have literary gatherings, but the School Board obtained the use of the Presbyterian church for the afternoon, and at three o'clock some 150 students took their places, eagerly looking forward to the program.

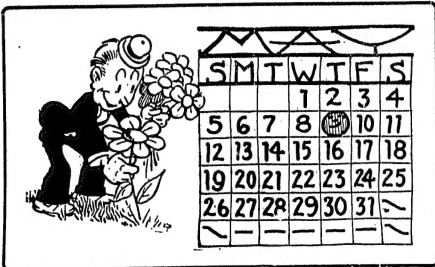

The Kiwanis Club have offered a beautiful silver cup as a debating trophy, to be competed for every year by the different rooms of the High School. As time is short this year the competition was limited to Grades XI and XII. Thus for the first time the trophy took its place before the interested audience, and Grades XI and XII took their places on either side of it—the fight was on.

The subject of the debate was "Resolved that in the activities of the League of Nations lies the World's Hope of Peace." Grade XI, supporting the resolution and Grade XII, taking the negative side. The supporters of the affirmative were Lloyd Wilson, Sylvia Bjorkgren and Margaret Sherbeck; those for the negative were Arthur Brickman, Myrtle Owen and Norma Baker. It was a hotly contested

ed fight, Grade XI, advancing splendid arguments for the League and Grade XII, immediately and remorselessly revealing the weak points. Finally, Mr. Russell, speaking for the judges' committee (consisting of Mr. Russell, Mr. Wade and Mr. Manley) gave the decision that Grade XII had won the trophy. So for this year the Kiwanis cup for Debating resides in Grade XII's room, but the other grades are all planning to fight for it next year. The winners are also the proud recipients of silver medals, presented by Messrs. Cook, Prest and H. R. French.

Besides the debate, there were several other interesting items on the program. Principal MacLennan taught the students an impromptu Kiwanis yell, after which Miss Kathleen Orr rendered a delightful piano solo. After the debate, while awaiting the judges' decision, Mr. Halmer Peterson, accompanied by his brother, charmed everyone with two delightful songs, and Miss Lauretta Vickers, in her usual lively way, gave a comic reading. Altogether, the afternoon was pronounced a success, and pupils and citizens are looking forward to more next year.

IMPROVING TURKEY FLOCKS

The trade in turkeys has been growing rapidly in recent years. Many tons of market stock are shipped out each autumn and winter particularly for the Thanksgiving and Christmas trade. Breeders of turkeys in the province of Alberta have taken steps to improve their stock and have organized themselves into the Alberta Bronze Turkey Breeders' Association. One hundred and fifty members of this body have already had 2,355 of their breeding birds banded and classified into three grades. Birds going into A grade are required to be almost perfect specimens weighing 16 pounds and upwards for young hens and 25 pounds or more for young toms. One

hundred and twenty-five birds were found to meet these qualifications. B grade birds may have minor defects in plumage but they must be large and well proportioned and weigh fifteen pounds or more for young hens and 25 pounds and upwards for young toms. Birds to be accepted in the C grade class must show evidence of good breeding, be well proportioned and weigh 13 pounds and better for young hens and 20 pounds or more for young males. Birds approved in the B and C grades were about equal in number, running slightly over one thousand in the B grade with one hundred more in the C grade class. The carrying out of the regulations and the classification of the stock is carried on by the Association in conjunction with Mr. G. M. Cornie, District Poultry Promoter of the Live Stock Branch of the Department of Agriculture at Ottawa.

BAD HANDWRITING

The illegibility of the handwriting of doctors has been a commonplace until the reproach bids fair to be laid aside with the advent of the typewriter. It was never entirely deserved, for no evidence was forthcoming that the doctors' ordinary correspondence was less legible than that of others. His prescriptions may well have been difficult to decipher by the average layman, written as they were in dog Latin, and containing pharmaceutical names with which he was not familiar. Moreover, there was no effort to make them legible to the patient; indeed, the intention was the reverse, for it was often inadvisable that the nature of the remedy or the dosage should be known to him.

Among doctors, as among other professional men, instances have been known of persons whose handwriting has been of three varieties: the first legible to the master's secretary or clerk; the second to the master alone; and the third to no one at all.

It is related that J. C. London, the landscape garden designer, wrote to the Duke of Wellington for permission to visit and inspect the "Waterloo beeches" at Strathfieldsaye; in response to which the Duke, reading the signature as J. C. London, addressed his letter to the Bishop of London (Bloomfield) saying how pleased he would be to see him, and that he would order his servant to show him as many pairs of breeches as he might wish to see, besides those he wore at Waterloo.

SPRING CLEAN-UP.

(Walt Mason)
Spring comes with all its glad array of lovely sights and scents and sounds, and good men look around and say, "We'll have to straighten up our grounds. Since Nature's making all things shine, which in her jurisdiction lie, we'll surely have to get in line, and make the winter's rubbish fly. We'd not be classed with also-rans when Nature's cleaning up the world, and so dead cats and old tin cans must from our premises be hurled. The skies are such a lustrous blue that shabby things look twice as bad, and so we'll paint our woodsheds blue and help to spread this clean-up fad." Breathes there a man with soul so dead he doesn't feel the springtime urge to paint the hencoop and the shed, and fix the fence, and make a splurge? If such there be, go mark him well, he lacks all pride, his head is sore, and all his frailties men will tell, at evening in the Blue Front store. When spring arrives the world's renewed, and everything seems fresh and sweet, and men with proper pride imbued will make their home look trim and neat. They'll rake the refuse from the sod and put new gravel on the path, and polish up the lightning

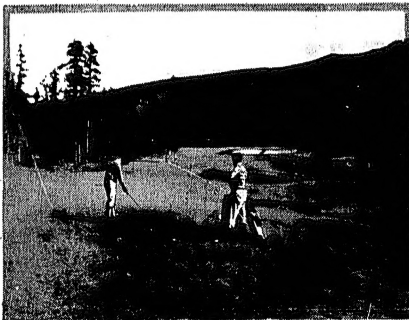

Dry mouth and parched throat are grateful for the refreshing coolness of Wrigley's Spearmint.

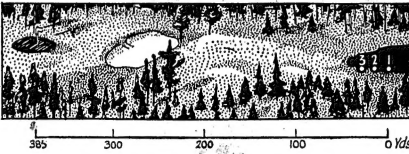

Wrigley's whittens teeth, sweetens the mouth, clears the throat and aids digestion, while the act of chewing calms and soothes the nerves.

SCENE OF R.C.G.A. AMATEUR

No. 1 Hole—385 yards, Par 4.

Jasper, Alberta, will be the venue of the Canadian Amateur Championships of the Royal Canadian Golf Association, August 19th to 24th, this year. The Jasper Park Lodge course par of 72 has not yet been made by an amateur player, and many reputations are likely to be shattered in the tournament this summer. It is expected that the course, which has been described by experts as the finest on the continent, will attract many of the outstanding players of North America. The photograph shows the first hole of the Jasper Park Lodge course as seen from the tee. Below is a plan of the first hole with the yardages to scale marked below it. Practically every hole has three tees, but in the amateur championships all play will be from tee No. 1. Co-incidental with the Canadian Amateur Tournament, the Western Canada Amateur will also be played over the Jasper Park Lodge course.

rod, and give the cow a needed bath. They blow themselves for standard paint, and linned oil of proper tang, and then, with colors queer and quaint, they'll beautify the whole bang. Since Old Dame Nature does her part to make the world so bright and fair, it's up to the tollers in the mart to brace themselves and do their share.

COMMUNICATION

(We do not necessarily endorse the sentiments advanced by this or any other correspondent under this heading.—Ed.)

The Editor, Wetaskiwin Times.

Dear Sir:

THE SPORTS ASSOCIATION
The activities of the Wetaskiwin Sports Association should be a matter of great interest to the people of the city. Nothing could be more hopeful than the fact that, Wetaskiwin is becoming more sports-minded.

Modern conditions have largely obliterated the necessity for regular daily chores which were once the bath of

youthful existence. The buck-saw is not today so generally used in the average back-yard. A mother can, by the mere turning of a tap, get her water instead of calling upon Johnny to haul water for the kettle, the boiler and the wash-tub.

It will be well if what the Sports Association is doing, engenders among young people, a love of sports and games, it is to be hoped that the field and equipment will be made available to them. For though games may not be as valuable in character building as a daily round of duties to be done, they are infinitely to be preferred to aimless wandering about the precincts of the city, which practice breeds a sense of irresponsibility that is likely to be a life-long handicap to a youth who gets that way.

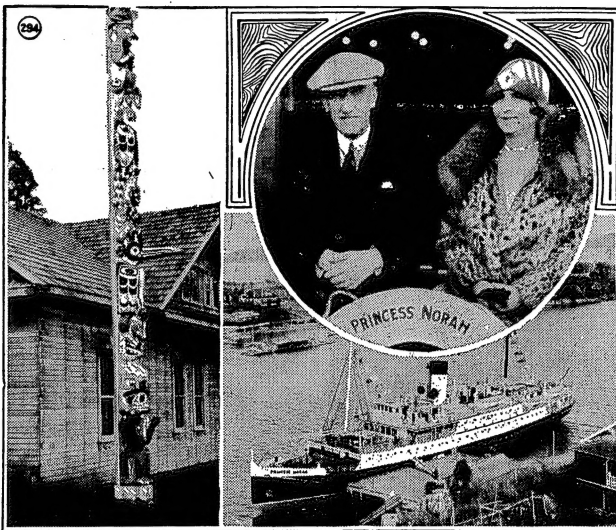

Yours sincerely,

J. H. HODSON.

"Does your bride enjoy cooking?" she should use soft water for soft-boiled eggs, and hard water for hard-boiled ones."

FORTY-FOOT GIFT FOR RIDEAU HALL

When Viscount Willingdon, Governor-General of Canada, and Lady Willingdon visited the West Coast of Vancouver Island on the inaugural cruise of the new Canadian Pacific steamer, "Princess Norah," two new epochs were marked for that far-flung corner of the Dominion.

It was the first time that a Canadian Viceroy had ever seen, and in turn, been seen on the rugged coast that is now looming as one of the nation's important industrial and tourist regions; further the arrival of the Norah brought the most luxurious passenger steamer ever to ply in regular service in West Coast waters, now to be the permanent run of the staunch little Clyde-built vessel.

The West Coast had decked itself in gala attire for the visit of the great white chief from Ottawa, tremendous excitement prevailing among whites and Indians alike at the various ports of call. Local interest was heightened by the fact that their Excellencies came formally to the four winds, and entered into the spirit of the many receptions and celebrations with a zest not exceeded by any tourist on the coast. Incidentally, Lord Willingdon intimated after the termination of his voyage that it would not be the last occasion on which he would see that particular part of Vancouver Island.

Loyalty of the Indians, evident at all points touched, was particularly demonstrated at Friendly Cove, historic spot discovered by Captain Cook in 1778, when a lineal descendant of the great Chief Maguinnah, who first saw the white man, gathered his tribe, the Nootka Indian band, in the great council hall to greet the vice-regal party. It was here that Lord and Lady Willingdon were recipients of one of the most valuable gifts in the bestowal of the coast Indians, a huge forty-foot totem pole that has stood for years on the sandy shores of Friendly Cove, the envy of collectors from many parts of the world.

Presentation of the totem was touching in its simplicity yet its significance was not lost. Chief Napoleon, head of the Nootka Band, descendant of Maguinnah, was first to extend the Indians' official welcome, elaborate ceremony which included the famous dance of the Thunder Bird, marking this part of the rites. Later, the Indians led the vice-regal party to the site of a huge totem pole standing near

A Sour Stomach

In the same time it takes a dose of soda to bring a little temporary relief of gas and sour stomach, Phillips Milk of Magnesia has acidity completely checked, and the digestive organs all tranquilized. Once you have tried this form of relief you will cease to worry about your diet and experience a new freedom in eating. This pleasant preparation is just as good for children, too. Use it whenever coated tongue or fetid breath signals need of a sweeter. Physicians will tell you that every spoonful of Phillips Milk of Magnesia neutralizes many times its volume in acid. Get the genuine, the name Phillips is important. Imitations do not act the same!

PRAIRIE M.P.'S WANT MORE DRASTIC CHANGE IN GRAIN REGULATION

Ottawa, April 20.—The recommendations of the Saskatchewan royal grain commission in its interim report made public last night are being carefully considered by members of parliament from the wheat growing constituencies of Western Canada. Under present arrangements the complete report will go before the agricultural committee of the Commons which has been conducting a somewhat similar investigation.

Prairie members, seen this morning, were inclined to express surprise that the recommendation of the commission had not been more far-reaching. They intimated that they would press before the committee for more drastic changes in the Grain Act than the commission had recommended, particularly in connection with mixing and grading.

The western members view the recommendations of the board of grain commissioners as most important and, onions, may be planted about the same time although they are not as hardy as the first mentioned. Peas should not go in until the weather turns warmer, for although they are fairly hardy, they are liable to rot if put in while the soil is cold and wet. This applies to the vegetable peas and not the kind grown for flowers, which are sown just as early as possible. Later sown or set out vegetables are cabbage, cauliflower, tomatoes, melons, cucumbers and celery. These will not stand any frost and so must either be planted or protected in hot-beds, cold-frames, or in the greenhouse underground. Those which are grown till all danger of frost is past.

EARLY PLANTING

Those vegetables of which the leaves are eaten, such as spinach, lettuce, cress and mustard, should go in first. There is little danger of planting them too soon as most of them will stand some frost. They may be planted just as soon as it is possible to get cold-frames, or in the greenhouse underground. Those which are grown till all danger of frost is past.

The invisible difference

Many motor oils look alike, but there is a vast difference in the way they perform. Unfortunately this difference is difficult to detect.

The invisible difference which makes one motor oil better than another must be inherent in the crude from which it is made.

There you have the reason why Marvelube gives better engine lubrication than oils refined from ordinary crudes. Imperial Oil searched the world over for a better crude—and in South America they found it. From it they make Marvelube—a pure, carbon-free, full-bodied oil that resists the extreme heats and pressures of modern engine operation.

Aircraft operators prefer Marvelube because better lubrication means greater safety and longer intervals between overhauls. Motorists prefer Marvelube because it is the ideal oil for modern motors. It ensures greater power, greater flexibility and greater economy.

There is a grade of Marvelube refined to meet exactly the specifications of your car. Consult the Marvelube Chart at Imperial Oil service stations and dealers.

Marvelube
a better motor oil made from Peruvian crude

IMPORTANT NOTICE

Clean Up Week

By order of the City Council the Citizens are requested to observe **CLEAN UP WEEK** from Arbor Day, Monday, the 6th, to Saturday, the 11th instant.

Any persons not attending to this order and allowing rubbish of any description to remain on their premises or on the City lanes or streets for which they are responsible will be prosecuted by the 15th instant.

For the Health and Welfare of our City, the hearty co-operation of the Citizens is earnestly requested.

By Order of the City Council.

(Signed) H. J. MONTGOMERY, Mayor
J. E. FRASER, City Clerk.

Balance Your Diet

(By Barbara B. Brooks)

Health is a subject of vital interest to everyone and this interest has resulted in some places in a week set aside called "Health Promotion Week." During this week every individual is urged to find out what a balanced diet is. By a balanced diet we mean one in which all three classes of food are represented in good proportion. The three classes are:

Regulating foods—those which keep the body machinery in good working order. They contain laxative material, minerals, vitamins, and are found in cereals, fruit, vegetables and milk.

Building foods—those which keep the body in repair and which build the new tissues of the growing child. They are cheese, eggs, fish, meats, milk, dried vegetables, and nuts.

Fuel foods—provide the body with heat and energy, which includes fats, cereals, sugars and starchy vegetables.

Perhaps that all sounds perplexing, but a few rules for planning meals have been found to help one to eat wisely and keep well.

1. Select at least one food from each group for every meal.
 2. Use freely foods which are laxative, such as bran and whole cereals.
 3. Serve two or more vegetables other than potatoes every day. Serve as many fresh vegetables and salad plants as possible.
 4. Serve fruit at least once a day.
 5. Include plenty of milk for both drinking and cooking purposes.
 6. Plan for the day or several days, rather than for each separate meal.
 7. As you plan the meals, think how they will look and taste when ready to serve.
- To help provide balanced diets for the family, menus for two days are given, showing the group to which each belongs.

Breakfast—Orange juice—regulating; bran flakes—regulating; eggs—

DON'T READ THIS

If your subscription is paid, if it is, you can tell by examining the date on the label. This date shows when your subscription was or will be due. Subscriptions paid during September were very few indeed, but we understand the cause—the grain is not yet harvested and money is very tight. But October should be better, and we do not wish to harass anyone with a little bill like a \$2.00 subscription. We believe most people, as soon as they can spare the money will be glad to pay this small item. We appreciate the difficulties of this season's financing, and have endeavored to say as little about subscriptions as possible. But we expect our delinquent subscribers to "come through" just as soon as they can.

PASTURE CROPS FOR SWINE

(Experimental Farms Note)
Feeding experiments at the Dominion Experimental Station, Lacombe, Alberta, have shown pastures to be economical in rearing hogs. In a test, conducted in 1927, comparing pastured hogs fed in dry lot, averaging the results of three lots showed that the hogs fed on rape pasture required 21 pounds less meal for each 100 pounds of gain than those fed in dry lot. This meant that it cost 50.7 cents more per 100 pounds gain to feed in dry lot. Results of test continued at this station indicate that the use of pasture not only effects a great saving in grain but also results in more thrifty pigs which make higher daily gains. On

tough and woody to make good feed. The coarse grains, such as oats, barley and wheat when sown alone or in combination, are commonly used for hog pastures on the prairies. These crops mature quickly and if a continuous pasture is to be provided a succession of seedings must be made. One month of heavy pasturing will finish all the succulent green growth in this type of pasture.

Another good pasture mixture for hogs is oats and peas, but the peas are expensive and difficult to secure, and if the season is dry give very poor returns.

Brome has been tried out at Lacombe as a hog pasture for the past two years and results to date would indicate that it has a place as a permanent pasture for pigs. Further data, however, as to its palatability must be secured before definite statements can be made regarding its value as a hog pasture.

SHRUBBERY AND FRUIT TREES
Fruit and ornamental trees, shrubbery and rose bushes are planted as soon as the ground is dry enough to dig. This also applies to bush fruits, strawberries and perennial flowers. Once the soil loses the moisture of early spring and hot dry winds commence, a much larger proportion of plants will die than if planted earlier. In planting these, trim off all broken and weak growth and shorten the top to compensate for the shearing off of the root growth. Plant a little deeper than those things were in before and make the hole big enough to receive all the roots without crowding. It is well to fill in with good soil, finely pulverized, and pour from half to a full

of water on this soil after it is firmed about the roots. The water will force the fine soil in tight around the tiny rootlets and exclude the air which would otherwise be fatal to the plant. Nitrate of soda sprinkled at the rate of a teaspoonful per bush in the case of newly planted seedlings up to half a pound for a large, well-established bush will stimulate growth wonderfully.

The Times invites the cooperation of residents of the country districts. Correspondents from districts not now represented in this paper are requested to write in for correspondence paper and particulars.

Town Topics

The Norwegian Lutheran Ladies Aid will meet at the home of Mrs. L. Jordhoy on Friday, May 10, at 3 p.m.

Miss Kennedy, who is teaching at Wetaskiwin, spent the week-end visiting Mr. and Mrs. A. R. Gibson—Red Deer Advocates.

Mrs. (Dr.) P. Melling and daughter of Edgerton, are spending a few days in town with Mrs. Melling's parents, Mr. and Mrs. C. E. Conipson.

A large number of Indians were in the city last week, making purchases with money which they recently received from the land which they disposed of a few years ago.

Mr. and Mrs. J. D. Saunders and son, Donald, motored to Wetaskiwin and Ponoka on Sunday. They were accompanied from Wetaskiwin by Mr. and Mrs. Lord—Camrose Canadian.

Rev. C. Thies of Edmonton and C. I. Kleiver of Holden, were the guests of Rev. Appel on Sunday evening. Rev. Kleiver occupied the pulpit in Zion Church during the evening service.

The friends of Dr. N. A. Johnson are pleased to see him around again after his recent illness with stomach flu. The Doctor was quite ill, but soon expects to recover his usual good health.

Keith French, who attended the University of Saskatchewan at Saskatoon last term, received the happy intelligence a few days ago that he made a very good showing and passed all examinations.

A meeting of the W.A. will be held at the home of Mrs. Horatio Cooke on Tuesday, May 14, at 4 p.m. All members are asked to make a special effort to attend, as there is important business to be discussed.

Among the twenty-one nurses who graduated from the General Hospital, Calgary, on Wednesday last, was Miss Dorothea Wallace of Wetaskiwin. Mr. and Mrs. Wallace went to Calgary to be present at the graduation.

Mr. Brown, who was the accountant in the Wetaskiwin branch of the Bank of Montreal for some time, left for Lethbridge on Sunday evening, where he has been appointed to the position of accountant in the bank there. Mrs. Brown and son accompanied him.

Mrs. William Carruthers, who spent the winter with her son Walter, in Winnipeg, returned to Wetaskiwin a few days ago and expects to spend most of the summer here. Her many old-time friends are glad to know that she is quite active and feeling fine.

Rev. R. W. Williams, Vicar of Westlock, will be in charge of the services in Immanuel Church on Sunday. Rev. P. C. Wade will take the services in the Anglican church at Westlock on Sunday next, and will motor to Athabasca, his old parish, for a few days.

The weather during the past week has been ideal for seeding, and the farmers of this community have practically all their wheat sown and many of them have commenced seeding oats. There is plenty of moisture in the ground for germination, but the growth has been slow as the nights have been quite cold.

Professors Walter Baepier and W. Riedel of Concordia Lutheran College, Edmonton, were visitors to Wetaskiwin on Sunday. At the conclusion of the morning service of the Zion Lutheran Church they addressed the congregation on behalf of the College Day, which will be held on May 20 in Edmonton. The Professors were the guests of Rev. Appel.

The regular monthly meeting of the Wetaskiwin Women's Institute was held in the club rooms on May 2nd, with a good attendance. The program was in charge of Mrs. George Gothard, Convener of Canadian Industries, and Mr. A. B. Lord gave a very interesting talk. Two solos were rendered by Mrs. Walter Groves, accompanied on the piano by Miss Ward, which were greatly appreciated. At the close of the meeting, a dainty lunch was served by Mrs. W. H. Hogan and Mrs. Ralph Schmitz.

DISTRICT CONVENTION

(Continued from Page 1)

ed in the church class room, when Mayor Montgomery gave an address of welcome. He quite agreed with the W.C.T.U. that the money spent in beer parlors might well be diverted to other channels and commended the temperance work being done by the W.C.T.U.

Rev. A. L. Elliott brought greetings from the United Church, Rev. Davey from the Presbyterian Church, Mrs. Barnett from the W.A. of the Anglican Church, Mrs. Beguin from the Catholic Women's League, Mrs. Rodell from the Women's Institute, Mrs. Johnston from the W.M.S. and Miss Kennedy of the High School staff represented the schools. Mrs. McKinney in reply, voiced the appreciation of the Convention.

An excellent program was put on in the evening, consisting of a play, "Right About Face," by the Red Deer Ladies. This temperance play, which is intensely interesting, and educational, was written by the Red Deer Union.

This was followed by an address by Mrs. McKinney "Prohibition Stocks

are Rising; Will They be Steady?" The speaker discussed the expectation of growth in stocks based on the world wide movement for and against prohibition, the demand on time, on money, or personality, the practicability and dividends. Prohibition did not succeed, why? Some liked to drink. We depended on law and forgot our education for young and old. People never thought it would come to this. We think now prohibition was a wonderful success. 77 suicides in Alberta in 1928, an abnormal increase. It looks like an increase in the consumption of alcohol. The speaker quoted an instance which she thought warranted the investment of our time, money, and personality at once. A small golf club had, through the Council, secured a beer license to sell on Sundays.

On Friday forenoon, the election of officers took place, resulting as follows:

Mrs. Edwards, Innisfail, re-elected President.

Mrs. Rieber, Didsbury, elected Vice-President.

Mrs. "Poodle, Wetaskiwin, Corresponding Secretary.

Mrs. (Rev.) Armstrong, Oids, Rec. Secretary.

Miss High, Red Deer, Treasurer. District Superintendents — Sunday school work, Mrs. Larratt, Red Deer; Medical Contest work, Mrs. Halliburton, Red Deer; W.L., Miss Marian Craig, Oids; S.T.L., Mrs. Donaldson, Bawlf.

At two o'clock, a reading "Peace and Arbitration," was given by Mrs. Edwards. The author said, "The great need to secure peace was a universal fear of God."

A paper was given by Miss Cremon of Didsbury, "Our Work and Its Appeal to Young People" from an athletic point of view, the efficiency appeal, the appeal to health, to business, through education. Youth calls for knowledge; Youth wants to do.

Walter McDonald, who won the medal in the Provincial Oratorical Contest, got his start as a speaker when he won the silver medal in a W.C.T.U. contest at Red Deer.

A symposium "Mothers' Meetings," was led by Mrs. (Rev.) Armstrong, of Oids.

A letter of sympathy was sent Dr. Sharp and family of Lacombe. The late Mrs. Sharp was honorary president of the District Convention and for many years was a provincial officer. The next Convention meets at Bawlf.

LADIES' AMATEUR

(Continued from Page 1)

though provision is made for the calling of special meetings of the Club. The Executive is granted power to fill vacancies which may be created in any office.

Standing Committees of the Club, to be selected by the Executive, are: Finance, Grounds, Supervision and Entertainment.

The annual meeting of the Club will be held on or about the first of April each year.

ROGER PATON

(Continued from Page 1)

ing was a great boon to Scouting. Since then the troop has gradually increased until at the present time we have thirty-six boys enrolled, with an average attendance of thirty to thirty-two. Mr. R. F. Aicher, the recently appointed Assistant Scoutmaster, is proving a great acquisition to the Troop. Roger is Troop leader, with the following Patrol leaders: Kelsa Murdoch, Beaver Patrol; Harry Moore, Antelope Patrol; Douglas Williamson, Otter Patrol; Bob Eaman, Panther Patrol; and Clifford Trea, the Eagles, the baby Patrol, and the only birds of the Troop.

GIRL GUIDE NOTES

The regular meeting of the Girl Guides was held in the Armory on Wednesday, May 1st. The meeting was opened in the usual manner. Miss Dickson then led the girls in physical training and they went through the Guide drill. A first aid lesson was given by Miss Walker on the care of wounds. The results of the tests on the physical exercises were given and quite a number of the Guides passed. Most of the girls are now well on their way towards obtaining their second-class badges. The Forget-me-not patrol won the shield for the month of May.

C.G.I.T. NOTES

On April 23rd, the C.G.I.T. Girls went to Mrs. French's house, where Mrs. French showed the girls how to set a dinner table. On April 30, after the opening ceremonies and the Bible discussion, the girls tried several tricks, and played games. They have \$22 in the treasury. After singing "Taps" the girls went home.

CORRECTION

A regrettable mistake was made in the report of Grade X-B. Kathleen Koley's average is 44.3 per cent instead of 34.3, and she stands nineteenth instead of twenty-fifth in the class.

To provide the table of a trans-Atlantic steamship with its luxuries one trip will often call for a supply of 250 turkeys, 500 pigeons, 500 ducks, 200 pheasants, 1,000 quail and five 110 pound turtles.

LOST

LOST—Car Jack, between Chalmers' Hardware Store and City water well. Return to T. Bourque's Garage and receive reward. 7-1tn

SPORT

EDMONTON ELKS WIN IN BOWLING MATCH

Some pretty fair bowling was seen at the Recreation alleys last night when a team of Wetaskiwin Elks hooked up with a like number of their Edmonton Brother Elks. The game was won by the home team from Wetaskiwin lost two out of three.

P. Johnson of Wetaskiwin had the distinction of not only turning in the high single string of 238, but also took the honors for high score on the game games with a nifty looking 632. Two of the Edmonton bowlers, Rolfe Hurman and R. Woolley also touched the six hundred mark, Hurman with 621 and Woolley with an even 600.

Following the match the players banqueted together at the Shasta. Complete scores follow:

Wetaskiwin Elks	
E. Abousaffy	150 204 180—554
H. Pacey	164 122 178—504
P. Fistrich	144 161 170—475
G. Graham	159 192 167—518
P. Johnson	181 238 203—622
Total	828 967 895—2553
Edk All-Stars	
W. Demas	199 169 167—535
H. Bagwell	184 173 160—517
A. Christiansen	178 154 175—507
R. Woolley	180 199 221—600
R. Hurman	182 225 214—621
Total	923 950 940—2813

GOLF CLUB NOTES

The following is the result of the two-ball foursome competition played last week at the Wetaskiwin Golf Club:

	Total	Net

Mrs. D. B. Stewart	56	14 42
Geo. Abousaffy	56	14 42
Geo. Graham	56	14 42

Other games were played, but cards were not turned in at the Clubhouse. The winners of the competition are: Mr. H. A. Dowler with his partner Mrs. Geo. Wiseman, tied with Mr. A. J. Taylor and his partner Mr. Morley Taylor, both couples having a very creditable net score of 36 for the 9 holes.

CANADIAN FISH SOLD TO HUNDRED COUNTRIES

Ottawa, May 6.—Products of Canada's fishing industry are exported to 100 countries and more and fish and fish products account annually for upwards of \$40,000,000 of the Dominion's export trade totals. The return from the fishing industry is distributed in all parts of Canada, putting millions of dollars in circulation in business.

Miscellaneous

We give you unusual assistance to assure you of success. Write for particulars, John R. Cressy Co., 296 Gladstone Ave., Toronto. 4-1tn

COMMERCIAL GRADES WIN EASILY FROM ALL STARS

Toronto, May 6.—The Commercial Grade of Edmonton, Indles' basketball champions of the world, won their second game in as many nights on their Toronto visit when they defeated an all-star aggregation of Toronto players at the Auditorium Saturday night. The Grade triumphed through to an easy 31-15 win, never being in danger despite a spurt by the all-stars in the second half. So completely did the western girls dominate the play that they trotted off the floor at the interval with a 10-2 lead, the stars' lone tally coming in the last minute before the breather.

RED DEER TO GET E. B. EDDY MATCH PLANT

Red Deer, Alta., May 3.—The E. B. Eddy Company will establish a match factory in Red Deer. It was announced by Mayor Harold Snell, following a special meeting of the city council this morning. A telegram from A. G. Woodruff, general manager of the company, authorized the announcement.

Mayor Snell stated that the plant would employ 100 men at the outset. A site, comprising forty acres, had been set aside. It is located west of the Canadian Pacific Railway tracks, and adjacent to the Red Deer river, as a bountiful supply of water is necessary to the operation of the plant.

The mayor said that the city of Red Deer had been in contact with the Eddy company for a long time, and that all negotiations had been consummated other than the submitting of a bylaw providing for a fixed assessment. This was one of the purposes of the council meeting today. The mayor did not anticipate any difficulty in respect of securing the consent of the ratepayers.

"This will be an important industry, not only to Red Deer, but to Alberta," the mayor observed. So soon as the details are worked out, actual construction will be started. Surveys have revealed that there is almost unlimited timber for match making to be found in the Rocky Mountain House and Breton districts. Through the co-operation of the Calgary Power Company, attractive power rates have been secured, and the city will install water, sewer, and light services to the site. Then the plant will be served by the Canadian Pacific and Canadian National railway systems.

ALBERTA TOWNS TO BENEFIT BY NEW ROAD PLAN

Edmonton, May 3.—Alberta towns that adopted the fifty-fifty agreement with the provincial government for the improvement of those sections of the main highway passing through their bounds will now have, from the same source, the opportunity of getting their roads cared for.

Hon. C. L. McPherson, minister of public works, announces the government's decision to put a new maintenance scheme into effect, under which the town pieces of roadway will be kept scraped and graded. Power-driven equipment over all the gravel roads of the province will be on the job this season, consisting of large tractor machines that will go over the roads daily, scraping and dragging them, or as the term now is, "blading" them. Each of these machines will patrol some 25 miles of roads, as against seven or eight miles that the horse-drawn scrapers used to cover.

Such patrols will include the towns along the route, and those of them that accepted the government's grading and graveling proposition now will have a chance to get their surface maintenance work done by the motor patrols. A nominal charge covering the actual cost of the work will be made.

Practically all the towns between Edmonton and Calgary are in line for this new blading service, and the north-to-south highway will accordingly be in the pink of condition all summer through. Millet has not yet joined the number, and Wetaskiwin is still working on independent lines.

GARNET INFERIOR TO MARQUIS WHEAT

Winnipeg, May 3.—Of color, volume of loaf and gluten content, Garnet wheat is inferior to Marquis, though the two varieties show no appreciable differences in absorption and bread yield, according to the result of a test completed at the Keweenaw mill of the Lake of the Woods Milling Company.

"If a high quality of flour is to be a first consideration," states the report of the company's investigators, "we cannot recommend Garnet for our mills. The result of this test further confirms our previous convictions."

To stage the experiment, which gave results in accord with previous tests, a mix of 2,000 bushels of Garnet wheat was milled in comparison with Marquis on a commercial basis. "An excellent sample of Garnet was used in the test," weighing 65 1/2 pounds per bushel and averaging 12.5 per cent protein; the Marquis sample weighed 62 1/2 pounds per bushel and averaged 13.2 per cent protein.

Neighborhood NEWS

HILLSIDE

Messrs. Webb, Hemphill and Hoskins were business visitors to Edmonton on Monday.

Mr. Fred Walger of Moon Lake, has accepted a position with Mr. Geo. Holt, Sr.

Mrs. E. R. Hoskins spent the week-end with her parents in Edmonton.

The many friends of Miss L. M. Foster will be glad to know that she is recovering nicely from her recent illness.

Owing to the I.O.O.F. service in Millet on Sunday, there will be no church service in the school house.

The Junior U.F.A. will hold their regular meeting in the school house on Friday evening, the 10th, instead of the 17th. Miss Archibald, the director for the Junior U.F.A. and U.F.W.A. work will address the meeting. A cordial invitation is extended to all senior members and visitors.

Owing to the Juniors holding their meeting on the 10th, the senior U.F.A. have postponed their regular monthly meeting till the 17th.

Rev. A. Murphy and Miss Camp, of the Church of England, made a few calls in the district last week.

Mrs. Walker of Moon Lake, returned home Saturday, after spending a few days with her daughter, Mrs. T. Bolt.

CROOKED LAKE

The next meeting of the Crooked Lake U.F.A. local will be held on Saturday evening of this week, at the home of Axel Lindgren.

WORST BLIZZARD RAGES IN NORTH, TRAINS SLOWED IN

Winnipeg, May 7.—For 10 days Northern Manitoba has been in the grip of the worst blizzard that has ever been known to that territory north of Mile 442 in the Hudson Bay Railway. The line is completely blocked and strenuous efforts are being made by the Canadian National Railways to reach two work trains, which are snowed in. One of these, carrying 150 men en route to Churchill for the Department of Railways and Canals, and the other has a smaller list of passengers southbound.

As the line is blocked for a distance of at least 65 miles there has been the danger of food supplies on the trains running short. Realizing this, the company at the outset of the storm dispatched food by horses from a cache at Mile 450. Later when the horses were no longer able to get through, dog teams were sent out and now three tractors are plowing their way from Churchill to the trains.

"If the worst comes to the worst," said H. A. Dixon, regional chief engineer of the Canadian National Railways, "we shall use airplanes. The storm, which is still raging, is the worst the North country has ever experienced in the memory of the old-timers."

FINED FOR KILLING MUSKRAT

Charged under the Canada Game Act with killing muskrats out of season, three men were arraigned before Magistrate Sanders in Calgary police court, Monday morning, and were fined. The charges had been laid by Constable D. Paton of the Alberta provincial police.

Stephen Stafford was fined \$10 and costs, William Freeman Harrison \$20 and costs, and George Brett \$10 and costs. According to the police they had shot a muskrat in the Nose Creek district northeast of the city.

NOTICE

MUN. DIST. OF BIGSTONE 459
Notice is hereby given that the Council of the Municipal District of Bigstone, No. 459, the Secretary-Treasurer, and Medical Officer of Health, Dr. McColgan, constitute a Board of Health for the Municipality, and any ratepayers suspecting contagious diseases within their household, must report same to any member of the above Board.

T. S. STEEDMAN,
Secretary-Treasurer.

SURVEY FOR NEW LINE IS COMPLETE

Youngstown, Alta., May 6.—Survey of the new line from Alliance to Youngstown has now been completed, and the land along the right-of-way has been acquired from farmers through whose land the railway will run for a large portion of the distance. It is expected that the work of grading will commence in a few days. The line which is a joint undertaking by the Canadian Pacific and Canadian National Railways will enter Youngstown a few yards west of the present C.N.R. station.

The survey work has been done by C.P.R. men, who are now carrying their line right on south, presumably to connect with the main C.P.R. line, which would give them a direct line through to Edmonton when complete. They are now camped 12 miles south of Youngstown.

AMUSEMENT TAX ON LOW PRICED TICKETS TO GO

Edmonton, May 2.—Off goes the amusement tax, to some extent. An order-in-council has been passed by the Alberta Government cancelling the existing tax on low-priced tickets, and affecting all such places of amusement and entertainment as moving picture houses, chautauquas, etc. Admission prices not exceeding 25 cents will hereafter be exempt, the only exception being places for public dancing. The order is to be effective June 1st.

"DON'T HAVE TO" MERCHANT DOESN'T GET VERY FAR

The bird who says "I don't have to advertise for everyone knows who I am, where I am, and what I sell," will never make any more than a living. The average shopper does not care who a merchant is, where he is, or what he sells. But, he does care about information as to cost of what he wants without wasting steps. So, Advertise.—The Life of the Town, Bellows Falls, Vt.

LET PEOPLE KNOW

Reader—If you find The Times bright and interesting, remember that you can make it even more attractive if you mail or telephone the editor all the personal items you can think of. Have your visitors at your home? Are your neighbors entertaining guests? Have any members of your family gone away on a trip? Are your friends out of town? Do you know of new residents coming here to settle? Have you hidden good-bye to Wetaskiwin-ites who are to make their homes elsewhere? Let The Times know.

SITUATIONS WANTED

WANTED—Married man, 33, with banking, auditing, accounting, hardware, general store and Post Office experience, wants work, any kind, in town. Family residing here. Can furnish references. Apply Box H, Times Office. 7-1tn

TOUCHING RETURN

"When the tourist arrived home he fell on his face and kissed the pavement of his native city."

"Emotion?"

"No, banana skin."

THERE'S NO NEED FOR THAT WORRIED LOOK ON YOUR FACE!

What's bothering you? Have you a car you want to sell? Are you making fruitless search for another job? Or possibly it's the other way about... you need help? Can't you get a room in which to rest your weary bones? Perhaps the cook has left or the one you've got don't measure up to the standard?

Tell you what to do. Invest a few cents in a Times Classified Ad, and folks'll be phoning you up or dropping around to see you within a few hours after we go to press.

Times Classifieds Lead the Parade

9 Outstanding Maytag Features

- 1 Washes faster.
- 2 Washes cleaner.
- 3 Largest hourly capacity. Tub holds 21 gal.
- 4 Most compact washer made—takes less space—only 25 inches square.
- 5 Cast aluminum tub—can't warp, rot, swell, split or corrode.
- 6 Easily adjusted to your height.
- 7 Clothes can be put in or taken out with the washer running.
- 8 Tub cleans itself.
- 9 All metal bringer. Self adjusting. Instant tension release.

For homes without electricity, the Maytag is available with in-built gasoline motor.

Turn that Hard Wash Day into an EASY WASH HOUR

The Maytag will do it by its faster, easier washing. By washing tubfuls in 3 to 7 minutes. By doing washings—50 lbs of dry clothes in one short hour. By washing without hand-rubbing—even collars, cuffs and wristbands.

Without stopping the Maytag, you can put clothes in or take them out of the heat-retaining, self-cleaning, cast-aluminum tub. You can pick out and wring the washed pieces while the rest are still washing.

Phone us—we will deliver a Maytag to do a week's washing FREE. Test it thoroughly—compare it with other washers. If it doesn't sell itself—don't keep it.

ALBERTA WEATHER POOL

We have a number of organizations in town and country—probably too many considering the results achieved. At any rate none of them have ever done anything about the weather. Therefore, be it resolved, that if an organization is any good at all it must show it is worth a vote by creating a weather pool, having the following cardinal principles:

- 1.—Spring must be far enough advanced each year to permit of seeding not later than April 15.
- 2.—Every Sunday during April must be dry and sunny with the temperature not less than 50 at noon.
- 3.—The leaves must be out on the trees not later than May 15.
- 4.—When organizing a picnic there should be no snow storm to interfere with the proceedings.
- 5.—If a snow storm is allowable at all it should fall after seeding and not before, and preferably at night so that the roads will be dry by noon the following day.
- 6.—Pastures should be in good condition by May 15, instead of June 1, as at present.

7.—The weather probabilities must be something more accurate than more guesswork and must be given for the next twenty-four hours and not for the day before yesterday as at present. Weather reports emanating from Toronto to be abolished.

8.—Dirty weather to be strictly prohibited. The country needs moisture occasionally—but this must be given in a decent and restrained manner, and not spread all over the country in large chunks of melting snow, cold rain and greasy mud, with a little sunshine at intervals to add a touch of sarcasm to the proceedings.

9.—Resolutions, promises and passages in the book also strictly prohibited. What the country needs is performance. Good weather is the slogan. We have stood long enough the brand of weather we are getting. In spring. Some people say we have the best climate in the world, but that is no reason why it can't be improved upon, especially in the spring.—Stettler Independent.

FIRST TELEPHONE OPERATES FROM TRAIN IN MOTION

Toronto, Ont., May 8.—One of the most important scientific developments of the radio age was successfully demonstrated yesterday when complete telephonic conversation was maintained for two hours between a moving train on the Allandale division of the Canadian National Railways and the telegraph head offices of the system in Toronto. Passengers on board moving trains with this equipment may reach any point served by the ordinary telephone system, similarly passengers on these trains may be communicated with by telephone from any point reached by local or long distance telephone.

The demonstration was officially opened on the train yesterday by W. D. Robb, vice-president in charge of the telegraph and telephone department of the C.N.R. With the train moving at 40 miles an hour Mr. Robb lifted an ordinary telephone receiver and asked for W. G. Barber, General Manager of Telegraphs at Toronto. A connection was made within a few seconds.

"Is that you, Mr. Barber?" said Mr. Robb. "This is the first time I have had the pleasure of telephoning you from a moving train. I wish to express the thanks of the president to you and your staff for all you have accomplished in this direction."

Subsequently a number of railway officials and newspapermen on the train talked with Mr. Barber. The voice from the other end was quite clear and distinct and reception was nearly perfect.

Another outstanding feature was demonstrated when Mr. Robb spoke over the long distance telephone on the moving train, his remarks being carried by telephone to C.N.R.T. and broadcast to a radio audience. The broadcast was picked up by the radio receiving set on the observation car on the same train from which he spoke. It was the first time this had been accomplished.

MUST WORK OUT INSURANCE PLAN

Edmonton, May 8.—Unemployment and sickness insurance as a possibility in Alberta should be considered on the same basis as old age pensions, in the opinion of Premier Brownlee. That means that the Dominion and the provinces will have to get together and work out a scheme, if there ever is to be one. In the case of the old age pensions both governments share in the cost on a fifty-fifty basis. Asked for his comment on the dispatch from Ottawa to the effect that the parliamentary committee recommends that such insurance should be based on compulsory contributions from state, employer and employee, but that the provinces are not ready to go on with the scheme, Mr. Brownlee said:

"It probably is true that under a strict interpretation of the British North America Act the question of unemployment insurance is one falling under the clauses providing for provincial jurisdiction. This is also true of old age pensions, but the Dominion undertook, notwithstanding, to make a contribution."

"A number of such questions will arise, as future development proceeds, and we shall have to forget a strict division of responsibility and get down instead to the practical question of how best they may be met and financed, or else the constitution will have to be re-cast so as to fix the responsibility for financing schemes and movements necessary to meet new social conditions."

FLIES OR BABIES, WHICH?

The above arresting title to a brief but very telling little pamphlet issued by the Metropolitan Life Insurance Co. gives a very real meaning to the "Clean Up" week which is being urged on all communities at this season. Filth and garbage of all kinds accumulate during the winter months. With the coming of the warm days the house fly appears. It is born in filth, lives in filth and when not busy on butter, milk, preserves or the baby's bottles, is feeding in filth.

It is estimated that the flies are responsible for more deaths than any single known disease. Babies are its particular prey since the infantile diseases are carried largely by the pest. Get rid of it by cleaning up all filth and garbage. Make a habit of burning all refuse. Give it no chance to breed. Screen doors and windows at the first hint of warm weather. Two flies at the beginning of the season will be responsible if allowed to live, for millions of other flies, they breed so rapidly. So clean up, burn up and screen doors and windows. Is it to be flies or babies? The choice is yours.

For literature on the summer care of babies send to the Canadian Red Cross Society, 407 Civic Block, Edmonton, Alta.

FER BILLY AN' FER ME

Dad, your gun is in its case,
Your rod is on the wall—
Daddy, when you shoot ducks
Did you shoot 'em all?
When you killed the deer an' fox,
An' cut the balsam tree,
Couldn't you a' left a few
For Billy an' fer me?

Dad, your factory on the creek
Makes a lot of noise,
Churnin' up the water
Where you played when you were boys.
Daddy, when you built it there,<
Couldn't you, maybe,
Just a' saved a swimmin' hole
For Billy an' fer me?

Daddy, wouldn't you suppose
That if you really tried,
You could save a little woods
An' fields an' countryside?
Kind o' keep a' savin' up—
You an' Uncle Loo—
Just a little out o' doors
For Billy an' fer me?

SIXTY THOUSAND BIRDS PASS R.O.P. TEST

A Federal Department of Agriculture policy that is responsible for a world's laying record, the shipping of birds and eggs to Japan, South America, New Zealand and many other countries, to say nothing of capturing orders from the world-famed Pataluma poultrymen of California, must have something in it that is worth while and of value to Canadian poultrymen.

The policy responsible for this development in the poultry industry is the Record of Performance for Poultry under the direction of the Dominion Live Stock Branch.

Since its inception nine years ago it has increased in usefulness, volume and efficiency, and altogether 162,873 birds have been trapped, and handled according to R.O.P. requirements. Of these 68,462 or 36 per cent have been certified, having met all requirements regarding vigor, production, egg weight, breed type, and freedom from standard disqualifications.

The report just published covering last year's work is available for distribution and may be had on application to the Publications Branch, Department of Agriculture, Ottawa.

A POEM

(From Rotary Program)
If you walk as a friend, you will find a friend
Wherever you choose to fare;
If you go with mirth to a far strange land
You will find that mirth is there.

For the strangest part of this queer old world
Is that like will join with like,
And who walks with love for his fellowman
An answering love will strike.

If you walk with honor, then honest men
Will meet you along the way;
But if you be false, you will find men false
Wherever you choose to stray.

For good breeds good, and bad breeds bad.
We are met by the traits we show;
Love will find a friend at the stranger's door,
Where hate would find a foe.

For each of us builds the world he knows,
Which only himself can spoil;
And an hour of hate or an hour of shame
Can ruin a life of toil.

And though to the utmost ends of the earth
Your duty may bid you fare;
If you go with truth and a friendly heart,
You will find friends waiting there.

Had Trouble With Her Kidneys Back and Head Aches

Mrs. H. Benjaminson, Otto, Man., writes:—"Shortly after the birth of my little girl I took very sick and was in bed most of the time. I had back-aches, headaches, and was all run down, and I had trouble with my kidneys. I tried all kinds of medicine, but nothing was able to relieve me. As I have eight children, and my husband was away at the time I sent for him to some home, when he did he brought me five boxes of Doan's Kidney Pills. After I had finished them I felt so much better I was again able to look after my family and household."

Price 50c. a box at all druggists or dealers, or mailed direct on receipt of price by The T. M. L. Co., Limited, Toronto, Ont.

SCOTIA MANITOBA MINES MAKE RICH DISCOVERY

Scotia Manitoba Mines which adjoin and surround Sherritt Gordon have recently acquired 26 more claims lying just north east of Fond du Lac claims on which have been discovered the richest surface showings in the Cold Lake District next to Sherritt Gordon. A full report just received from Jack Campbell, General Manager, says the mineralized vein, heavy in copper and zinc, extends over twelve hundred feet and has a width of over eleven feet.

As a result of this rich discovery diamond drills are being set up and an intensive development campaign will be carried on during the summer months. Mr. Campbell says the manager of the Sudbury Diamond Drilling Company, who has a staff of experienced drillers, formerly with the International Nickel Company, is on the ground with preliminary equipment and is making final plans for a heavy drilling program.

Mr. Campbell also has a gang of experienced men ready to commence clearing and stripping the 21 claims of Scotia Manitoba situated between and in direct line of the known ore body of the two Sherritt Gordon properties.

SOME CURIOUS THINGS ABOUT CHINA

In rowing a boat we pull, they push. We use a soft pillow; they use a hard one.

Our sign of mourning is black; theirs is white.

We shake a friend's hand; they shake their own.

In building we put the roof on last; they put it on first.

We blacken our shoes; they whiten their shoe soles.

Our calendar is based on solar time; theirs is based on lunar time.

Here desserts are served at the close of a meal; there at the beginning.

Our shop signs are mainly horizontal; theirs are mostly perpendicular.

The needle of our compass points to the north; theirs points to the south.

We read from left to right, horizontally; they read perpendicularly from right to left.

We give especial attention to our collar and cuffs; they direct it to their white socks.

Our children stand facing the teacher to recite their lessons; theirs turn their backs to the teacher.

Our weddings are celebrated at the home of the bride; their weddings are celebrated at the home of the bridegroom.

Our watchmen quietly go their rounds with a view to catching thieves; theirs beat gongs and yell to frighten them away.

The school inspector was coming to test the class in Scripture. The teacher warned the boy at the top of the class that he would be asked who made him, and told what answer to give.

Unfortunately this boy had occasion to go out just before the inspector arrived, with the result that the question was put to the next boy, who was unprepared.

"Please sir," he said to the inspector, "the boy God made is out of the room."

Curbs Strains

For those suffering from inflamed, swollen joints, sprains, bruises, swollen limbs, polio, rheumatism, neuralgia and infected sores, use Absorbine. It is economical and effective. Will not blister or remove hair, and the horse can be worked during treatment. Bottles on hand sent free. \$1.50 per bottle at your druggist's or general merchant's. W. F. Young, Inc., Lyman Bldg., Montreal.

THE DESPERATE LOVER

By E. Phillips Oppenheim
ILLUSTRATED BY FRANK B. DRIEN

His withered figure seemed to have gathered strength and dignity, and his appearance and tone, as he gazed scornfully down at the girl at his feet, was full of a strange dramatic force. Her heart sank as she listened to him. This was no idle, vulgar passion, no morbid craving for evil, which animated him. It was a purpose which had become hallowed to him; something which he had come to look upon as his sacred right. She understood how her drawing back had hurt him. As though a flash of light had laid bare his mind, she saw how weak, how pitifully weak, any words of hers, must sound, so she was silent.

He had commenced walking up and down the room; and, watching him fearfully, she saw that his manner was gradually changing. The unnatural calm into which he had momentarily relapsed was leaving him, and he was becoming every moment more and more excited. Fire flashed in his eyes, and he was muttering broken words and sentences to himself. Once he raised his clasped hands to the roof in a threatening gesture, and in the act of doing so he saw the blue flash of a silhouette in his breast pocket. It frightened him, and she moved toward the door.

It seemed almost as though he read her purpose in her terror-stricken face, and it maddened him. He caught her by the wrist and thrust her back.

"You shall not leave this room, girl!" he cried. "Wait, and soon I will bring you news."

She stood, still panting, overcome for a moment by the strength of his grip. Before she could recover herself, he had caught up his hat and was gone. Outside, she heard the sound of a key in the lock. She was a prisoner!

Her first thought was the window. Alas! it was too small even for her to get her head through. She cried out. "No one answered; there was no one to answer. She was alone in the cottage, and helpless, and away over the cliffs, toward Malbury Grange, she

could see a small, dark figure walking steadily along, with bent head and swift steps. The cottage stood by itself, a mile from the village, and was approached only by a cliff path. She turned away from the window in despair. It seemed to her then that the time for her final sacrifice had indeed come.

It was a warm, drowsy morning, and the air which floated in through the open lattice window was heavy with the perfume of flowers, mingled with the faint ozone of the sea. Outside, the placid silence was broken only by the murmur of the sea and the soft lapping of the tide upon the shingly sands. Within the room, a pale-faced girl knelt upon the

Leonardo di Marioni Comes to the Rescue

floor, with her long, slim fingers stretched upward, and the passionate despair of death in her cold, white features. The sunshine laughed upon her hair, and glanced around her, basking her beautiful face in its fresh, bright glow. Was it an answer to her prayer, she wondered—her prayer for peace and forgiveness? Oh, that it might be so! God grant it!

There was no fear in her face, though only a moment before she had taken out and swallowed the contents of that little packet of poison which

had burned in her bosom for those last few days. But there had been just one passing shade of bitterness. Her life had been so short, so joyous, until there had come to her that brief taste of wonderful, amazing happiness. She was young to die—to die with the delirium of that passionate joy still burning in her veins.

"Yet, after all, it is best," she whispered softly, at the end of that unspoken prayer; and with those words of calm resignation, a change crept softly in upon her face. It seemed almost as though, while yet on earth, there had come to her a touch of that exquisite spiritual beauty which follows only upon the extinction of all earthly passion, and

the uplifting into a purer, sweeter life. And her eyes closed upon the sunlight, and darkness stole in upon her senses. She lay quite still upon the floor; but the smile still lingered upon her lips, making her face more lovely even in its cold repose than when the glow of youth and life had shone in her dark, clear eyes, and lent expression to her features. Scarcely like St. Francis of Assisi may die thus, but seldom women.

"Help! For God's sake, help!" A woman's cry of agony rang out upon the sweet morning stillness. Count Marioni, who had been hurrying on with downcast head, stood still in the cliff path and lifted his head. It was the woman whose memory he had cursed who stood before him—the woman on whom vengeance was to fall.

Her face was as white as his own, and in the swift of her flight her hat had fallen away and her hair was streaming in the breeze. Yet in that moment of her awful fear she recognized him, and shrank back trembling, as though some unseen hand had palmed her tongue, and laid a cold weight upon her heart. They stood face to face, breathless and speechless. A host of forgotten sensations, kindled by her appearance, had leaped up within the Sicilian's heart. He and indeed loved this woman.

"Merciful God! to meet you here," she faltered. "You will help me? Oh, you will help me? The husband is being murdered there on the cliff by an escaped lunatic. Oh, Leonardo, save him, and you may strike me dead at your feet. It is I whom you should hate, not him. Oh, come! Come, or it will be too late!"

He stood quite still, looking at her curiously.

"And it is I to whom you dare to come for help—whom you ask to save him—your husband? Adrienne, do you remember my words on the sands at Malbury?"

She wrung her hands, frantically imploring.

"How can I remember anything—think of anything, now? For the love of God, help him," she begged, seizing his hand. "That was all so long ago. You would not have him killed here before my eyes? Come! Oh, do come!"

"Lead the way," he answered sternly. "Call your louddest for other help. I make no promise, but I will see this tragedy."

She ran back along the path, and he followed her. They turned suddenly on an abrupt corner, and came upon two men locked in one another's arms, and swaying backward and forward upon the short green turf. The lunatic, an immense fellow, more than six feet high, was clutching his oppo-

nent's throat with his left hand, while with his right he brandished a long table-knife with heavily-sharpened edge. The struggle was virtually over. The madman's strength was more than human, and desperately though he had struggled, Lord St. Maurice was lying exhausted and overcome in his arms.

With a final effort he turned his head at the sound of footsteps, and saw them come—his wife and this shrunken little old man. But close at hand though they were, nothing could help him now. He saw the steel flashing in the sunlight, and he closed his eyes.

The knife descended, but Lord St. Maurice remained unhurt. With a swiftness which seemed almost incredible, the Sicilian had sprung between them, and the knife was quivering in his side. Behind, the lunatic was struggling helplessly in the grasp of three keepers.

There was a wild cry of horror from Lady St. Maurice, a choking gasp of relief from her husband, and a horrid chuckle of triumph from the madman as he gazed upon his handiwork. But after that there was silence—a deep, awe-stricken silence—the silence of those who stand in the presence of death.

Count Marioni lay on the turf where he had sunk, very white and very still, with the blood dripping slowly from his wound upon the grass, and his eyes closed. At first they thought that he was already dead; but, as though aroused by Lady St. Maurice's broken sobs, he opened his eyes and looked up. His lips moved, and she stooped low down to catch the sound.

"Will you tell Margherita that this was best?" he faltered. "I have heard a whisper from your sister, and the White Hyacinth forgives. I forgive. She will understand."

"Leonardo," she sobbed, "your vengeance—"

He interrupted her. "This is my vengeance!" he said. "I have kept my oath!"

Then he closed his eyes, and a gray shade stole into his pallid face. A breeze sprang up from the sea, and the tall, blood-red poppies, which stood up all around him like a regiment of soldiers, bent their quivering heads till one or two of them actually touched his cheek. He did not move; he was dead.

Lord and Lady Lumley had lingered long in Rome, and now, on the eve of their departure, they had spent nearly the whole of a bright November afternoon buying curios of a wizened old dealer, whose shop they had found in one of the dark narrow streets at the back of the Piazza Angelo. Lady Lumley had taken up a curious old ring, and was examining it with a vague sense of familiarity.

"Ten pounds for that ring, my lady," the curio dealer remarked, "and it bears a history. You will see that it bears the arms and motto of the Marionis, once the most powerful family in Sicily. I had it from the late Count himself."

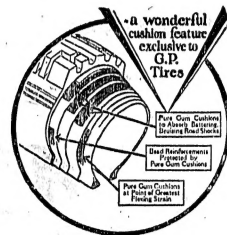

Lady Lumley sank into the little chair by the counter, holding the ring tightly in her hand.

"Will you tell us the history?" she asked in a low tone.

The man hesitated. "If I do so," he said doubtfully, "will you promise to keep it also entirely secret?"

"Yes."

"Well, then, I have told it to no one yet, but I will tell it to you. Many years ago I was a chemist, and among my customers was Count Leonardo di Marioni. His history was a very sad one, as doubtless you may have heard. When he was quite a young man he was arrested on some political charge, and imprisoned for five-and-twenty years—a cruel time. Well, scarcely more than twelve months ago he came to me here, so altered that I found it hard indeed to recognize him. Poor old gentleman, when he had talked for a while, I felt sure that his long confinement had affected his mind, and his errand with me made me sure of it.

high speeds— sudden stops!

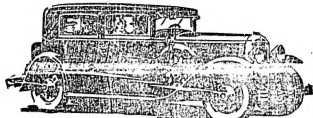

MOTOR cars travel faster these days regardless of road surfaces—and tires must be built to take severe punishment. Gum Cushioned Tires are built for modern high speed and quick stops—for rough roads and smooth roads—for resistance to flexing strains and bruising jolts—it's the cushion principle that saves them. Go to Gum Cushioned Tire Stations—they'll show you.

G. W. MALMAS	OTTO WESTIN
WM. MAXWELL	J. N. WICK
JOHN MCMAHUS	GEO. WATERSTON

Certain statements have been made recently regarding the Newly Organized Wetaskiwin Co-operative Creamery Association which are misleading and which we wish to correct.

Early in the summer of 1928 the dairy producers of the Wetaskiwin District started a movement to organize a co-operative Creamery Association, being desirous of operating a creamery and manufacturing their own product. We have now organized the WETASKIWIN CO-OPERATIVE CREAMERY ASSOCIATION, the directors of the Association being, E. R. Rasmussen, Wm. Milton, Geo. Waterston, Thos. A. Angus and J. R. Rickard, and are leasing the plant and equipment of the Wetaskiwin Creamery Co., Ltd., outright, to operate as a co-operative Creamery under the Alberta Co-operative Marketing Act.

No Contract is required of Any Producer

Profits will be distributed to ALL producers selling their product to the Association

The purpose of the Association is to encourage production in the District, which in turn will increase the output of our Creamery, thereby reducing manufacturing costs, the savings therefrom to be in the hands of the Association to distribute to our patrons in the way of cream bonuses.

It is to the interests of all producers of the District to deliver their products to our plant, which has the proper facilities and equipment to manufacture at a cheaper cost per pound than any

creamery of its size in the Province. This means better returns and more profits to the producers.

We, accordingly, respectfully solicit your patronage during the coming years and appeal to you to help make dairying more profitable and satisfactory in the Wetaskiwin District.

Particulars regarding the Association are no secret and any information you would like to have regarding the Association and its operations, or membership may be had from the Secretary, H. A. Inglis, or from any of the above named directors.

Wetaskiwin Co-operative Creamery Association

The Week at Ottawa

(By Wm. Irvine, M.P.)

The Postmaster General is still on the rack of political criticism. At times one cannot help feeling sorry for him. The entire opposition has concentrated their attack on the Post Office Department. The attack has been sustained and is still going strong. The Postmaster General appears to have lost his old fighting spirit, returning to the defence day after day in a dogged and discouraged aspect. If it were not that Parliament senses that there is some justification for the criticism, it is hardly likely that it would have been allowed to go on so long.

With the exception of the Minister of Public Works, no other Member of the Cabinet has ventured on the thin ice to pull the Postmaster General out of the hole. One or two backbenchers skated around the edges a little more intent on drawing the attention of parliament away from the Postmaster General and to their own capers. While the Prime Minister, the Minister of Justice and the Minister of Railways have all sat silent—their faces have shown that the whole affair has been anything but pleasant. The Leader of the Opposition almost drew the Minister of Justice into the fray last night, but luckily Mr. Halsey, a young barrister Member from Nova Scotia, came to the rescue and tilted over the strained moment by a technical dissertation on "criminal intent." He did not attempt to deny that the post office official in question had appropriated public money to himself, but he argued that criminal intent would have to be proven before the man could be regarded as a thief, and that until he had been proven a thief,

The charges against the Postmaster General may be divided into two classes—under the first class we may group all charges of dismissals of government employees for partisan reasons, and under the second class, will come all cases in which dishonesty and inefficiency have been ignored and even at times rewarded by the Minister. Charges under the first division are numerous and common. These are not usually taken seriously, for it is always felt that those who have been subject to a partisan dismissal, probably obtained the position originally as a partisan appointment. Charges under the other division are more serious, however, especially when embezzlement is included. I will mention one or two as typical cases of this kind:

The Post Office Superintendent for New Brunswick discovered that a country postmaster was short in his accounts by \$907.96. He reported the matter to the financial department which being unable to collect, referred the case to one of the post office inspectors, who not only undertook to collect the amount owing by the postmaster, but to himself guarantee the amount. After six months when the department had been unable to collect from the defaulting postmaster or the inspector who had guaranteed the amount, the case was referred to the Postmaster General. He took no action. It subsequently transpired that the postmaster had been paying amounts regularly to the inspector who had put the money in his own pocket and denied that he had received it, until forced by the superintendent to pay it. Because of this occurrence the superintendent did not recommend the inspector for the annual increase of salary. However, the Postmaster General ignored the recommendations of the superintendent and not only raised the salary of the

inspector, but actually promoted him over one of his superiors. The contention was that the Postmaster General should have discharged the inspector as soon as his actions were known.

Another case was that of a youth who had stolen money out of the mails. His father undertook to pay the amount stolen and to pay it by instalments. This same inspector was to collect the amounts from time to time. He did and in fact collected more than was due, but did not forward the extra charge to the Department, nor did he return it to the man who had been overcharged.

Hon. Mr. Bennett, Leader of the Opposition, presented these two cases, reading much from the files of the Department as evidence, alleging that Mr. Griffith, the post office inspector, is guilty of embezzlement.

Under the section of the Act Mr. Bennett claimed that the inspector above-mentioned was guilty of embezzlement and further Mr. Bennett quoted letters from the inspector in which he admitted improper custody of public money.

Another motion of no-confidence has just been moved. The Postmaster General is speaking against it while I write. I cannot guess the outcome of this fight.

ALBERTA WHEAT POOL NOTES

The Alberta Wheat Pool reports that the increase in membership during the first four months of 1929 was greater than during any similar period in the history of the Alberta Pool.

Alberta Wheat Pool has made preparations for the holding of the annual nomination and election of delegates. The membership each year chooses from among its members, 70 delegates to direct the policies of the Pool. Nominees for that position must live

in the sub-district in which they are nominated, must be directly connected with wheat producing, and must have the names of ten members resident in the sub-district on the nomination paper. Nominations must be in hand by June 30th.

The appeal of H. W. Keay from the judgment of the Supreme Court of Alberta which dismissed his suit against the Alberta Wheat Pool, was heard before the Supreme Court of Canada at Ottawa, and judgment was reserved.

Alberta Pool elevators are having their spring clean-up. The management has instructed local agents to see that the elevator property and surroundings are put in spick-and-span condition.

Glycerin Mixture Stops Constipation

The simple mixture of glycerin, buckhorn bark, saline, etc. (Adlerka) acts on BOTH upper and lower bowel and relieves constipation in TWO hours! Rings out old waste matter you never thought was in your system. Don't waste time with pills or remedies which clean only PART of the bowels, but let Adlerka give stomach and bowels a REAL cleaning and see how good you feel. Northern Drug Co.

Playing Safe
A colored man was driving an old silver in Calgary. In lieu of the license plate, he had a shingle attached to the rear of his car and on this shingle were printed these words: "Lost It."

For His Better Half
Blackston: "Does your wife open your letters?"
Whitewate: "Only those marked 'private'."

Provincial Weekly News Bulletin

(Issued by Publicity Commissioner, Government of Alberta, Edmonton, Will Continue to Advertise Alberta Coal)

The Alberta coal publicity office in Toronto will be continued during the coming season as part of the program to popularize the Alberta fuel on the Eastern market. A grant of \$5,000 to assist in this work was authorized at the last session of the Legislature and the majority of this sum will be used in carrying out an expensive program of advertising through the eastern provinces.

Alberta Man Heads Agriculturalists
Announcement is made during the past week of the election of Professor J. P. Sackville of the Department of Animal Husbandry of the University of Alberta as president of the Canadian Society of Technical Agriculturalists for the year 1929-30.

Make Placer Tests Near Medicine Hat
Drilling operations to determine the possible location of valuable placer beds along the South Saskatchewan river near Medicine Hat have recently been undertaken. The work is being carried on by Geo. L. Holmes of J. P. Francisco and H. L. Beckman who have had extensive experience in placer mining fields in various parts of the world. The tests will determine whether the values per cubic yard are sufficiently great to warrant dredging on a large scale.

Southern Alberta Dairy Pool Expanding
Construction of a new building in Calgary to house the head office of the Southern Alberta Dairy Pool has been decided upon. It is planned to continue operations in the present premises until the coming fall when work will

How to Play BRIDGE
Series 1928-29 by
Wynne Ferguson
Author of "PRACTICAL AUCTION BRIDGE"

Copyright 1928, by Wynne, Jr.

ARTICLE No. 18

In the preceding article a number of interesting hands, submitted by correspondents, were given and opinions asked as to the proper bids and plays. Here are the solutions:

Answer to Problem No. 20

Hearts—A, K, 8
Clubs—A, K, 8, 6, 4, 2
Diamonds—none
Spades—K, 8, 7, 4

Hearts—10, 9, 5
Clubs—Q, 7, 5
Diamonds—5, 4, 2
Spades—Q, J, 3, 2

No score, rubber game. Z dealt and passed. A passed and Y bid one club. If B passed, what should Z bid with the foregoing hand?

Z should bid one heart. If he does, A will bid two diamonds. Y will bid two hearts and all will pass. A will open the king of diamonds, which Y will trump with the eight of hearts. Y's best play is to lead the ace king and deuce of clubs, trumping the round of clubs in Z's hand with the jack of hearts, thus shutting out A. Z should now lead two rounds of hearts, winning both in Y's hand. Y should then place Z in the lead with the ace of spades so that he may lead his queen of hearts, thus taking out all of the trumps. Z should now lead the nine of spades, winning the trick in Y's hand with the king of spades. Y's three club tricks are now good; thus Y loses only one spade trick. This surprising result is a most interesting one, both in the bidding and the play, so note it carefully.

Answer to Problem No. 21

Hearts—none
Clubs—A, K, Q, 10, 9, 7, 6, 3
Diamonds—10, 9, 8
Spades—A, 10, 4

Hearts—A, K, Q, 10, 9, 7, 6, 3
Clubs—A, K, Q, 10, 9, 7, 6, 3
Diamonds—10, 9, 8
Spades—A, 10, 4

No score, rubber game. If Z dealt, bid one no trump and A passed. Y should bid two clubs. The hand is too unbalanced to justify its play as a no trump; yet it is strong enough to offer a chance for game at clubs. If the partner should bid two no trump, Y should bid three clubs. If partner then bids three no trump, Y should pass. If partner should bid two hearts over Y's two club bid, Y should bid two no trump. If partner should bid two diamonds or two spades, Y should pass. Don't hesitate to take out your partner's no trump bid when you have a singleton or a void suit, whether your long suit is a minor or a major. The usual distributions that warrant a take-out are 4-4-1-1, 5-4-2-1, 5-3-2-1, 5-4-4-1, 7-3-2-1, 7-3-3-1, or any longer suit. Such take-outs are the so-called distribution take-outs and are being followed trick generally.

If your partner knows that you take out with a singleton or void suit, he usually can figure out the missing suit and then, if he thinks the no trump bid offers a better chance for game, he should bid two no trump. It is then up to you to decide whether you should go on with your bid or let the no trump bidder try for game. The purpose of all sound bidding is to find the suit that will best fit twenty-five cards, not thirty, and this purpose can only be carried out by bidding. Don't hesitate to take out your partner's no trump bid whenever you hold any of the distributions just specified.

Answer to Problem No. 22

Hearts—K, Q
Clubs—A, K, 10, 7, 5, 4
Diamonds—K, J, 6
Spades—A, 7

Hearts—9, 8, 5, 2
Clubs—9, 8, 6, 5
Diamonds—K, Q, 9, 8, 6, 5
Spades—K, Q, 9, 8, 6, 5

No score, rubber game. Z dealt and passed. A passed, Y bid one no trump. B bid two hearts. Z bid two spades and passed. Y bid two no trump. B bid three diamonds. Z bid three spades and all passed. A opened a low heart which B won with the ace. B returned a low heart, and all followed suit. How should Z play the hand from there on?

Y's hand is in the lead. Z knows that B has both the ace queen of diamonds and the top hearts. Therefore, he should not plan the play that he can set up a diamond trick, if possible, and thus obtain one heart discard. The other losing heart he must trump in Y's hand.

At trick three, therefore, Y should lead the six of diamonds, which B must win with the queen, all following suit. B's best lead is a spade, which Y should win with the ace as A will play either the ten or jack. Y should now lead the jack of diamonds and B must play the ace. Z should trump this and lead a heart. A has no hearts so he can either overtrump Y's five of spades or discard. In no way can A win more than one spade trick. When Y's hand obtains the lead, Y should lead the king of diamonds which is now good and discard Z's last heart.

Played in this way, Y Z should only lose one heart, one diamond and one spade trick at the most. It is a pretty hand and should be played out for practice. To do this properly, give B five hearts to the ace, five diamonds to the ace queen and then distribute the remaining cards in different ways.

MILLET LOCAL NEWS

The beautiful harbinger of spring, the anemone, adorns the meadows and roundabouts.

Miss Muriel Dalstone of Edmonton, was the guest of Mrs. Graham over the Arbor Day holiday.

Mr. and Mrs. Carr and family have moved to the home formerly occupied by Mr. and Mrs. Gibbling.

Mr. K. Korr has had the lot owned by Mr. Cohen cleared and plowed, and hopes to have a fine garden.

Mrs. S. C. Moen and tiny Lols May arrived home from the Wetaskiwin hospital during the past week.

Gardening is the order of the day—and the slogan "Clean Up, Paint Up," is an appropriate accompaniment.

Mr. and Mrs. George Henry, Master Douglas and little June, were guests of Mr. and Mrs. Graham on Sunday evening.

Mr. and Mrs. Gibbling and little family have moved into their new home at the north side of town during the past week.

Mr. Bacon of Edmonton, arrived last week to take a position as assistant butter maker with P. Burns & Co., in the local creamery.

The Boys' Mission Club and Junior Auxiliary are giving a social in the Community hall on Thursday evening, May 9th, at 6 o'clock. Lunch will be served. Tickets 35c; children 15c.

Sunday, May 12th, being Mother's Day, the evening service at 8 o'clock in the United church will be in accord with this commemoration. A special program of appropriate music and other features is being prepared. The hour has been changed to 8 for the convenience of the many who would otherwise find it impossible to be present.

Mrs. W. Burdon was hostess at a whist drive given in her home on Wednesday evening, April 17th. Six tables were played. Mrs. H. A. Pulcher and Mr. Geo. Beach being the winners for the evening, while Miss Kathleen Pulcher and Mr. B. Bendette took the consolation prizes. The proceeds for the evening were donated to the Wiesenford W.I. and made a very acceptable addition to the general fund. At midnight a delicious supper was served by the hostesses, who were assisted by her daughter, Mrs. E. Priestly of Vancouver.

Among the local Oddfellows who attended the I.O.O.F. Memorial Service in Wetaskiwin last Sunday, were: Messrs. H. Greening, F. Thompson, J. West, H. Scott, V. Nordquist, J. O. Anderson, K. Thompson, F. Higginson, A. P. Mitchell and R. Gibbling. Visiting Oddfellows and their friends were made guests at a luncheon, prepared by the ladies, in the lodge room. The service was held in St. Andrew's Church, and was conducted by the local pastor, Rev. Day, and Rev. L. R. Macdonald of Millet, who gave the address. The special music by the choir was much appreciated.

The annual Memorial Services of the Millet I.O.O.F. Lodge will be held in Playter's hall, Millet, on Sunday, May 12, at 2:30 o'clock. This is the 110th anniversary of the Order and it is expected that all Oddfellows of the district will be present. Invitations to attend have been sent to ten outside lodges, and it is expected that there will be many here from outside points. The address will be given by Rev. L. R. Macdonald, pastor of the United Church, and Rev. Arthur Murphy of the Anglican Church will be present to assist in the service. The United Church choir will be assisted by members of the Anglican choir in special music for the occasion.

Hark! Hark! the lark
At Heaven's gate sings,
And Phoebus' glens arise
His steeds to water at the springs
In chilled flowers that lie.
In winking merry buds
Begin to ope their golden eyes,
With everything that pretty is.
My lady sweet—Arise! Arise! Arise!

THINK IT OVER!

When we follow our desires unrestrainedly they lead to disaster. Nature worship and natural ethics mean disaster for the human spirit. The natural always tends to become unnatural unless redeemed by the supernatural.—Northern Messenger.

Obituary

MRS. A. CLARK

There passed away at the Wetaskiwin hospital on Friday, Mrs. Clark, wife of Mr. Abraham Clark of Kananaskis, after a short illness. The deceased was 25 years of age, and leaves her husband and three small children to mourn her loss.

Mr. and Mrs. Clark have been residents of West Millet District for several years and moved to Kananaskis just over a year ago. Many friends, especially from the west, were present at the funeral, which was held in the United church on Monday afternoon at 2:30. The service was conducted by Rev. L. R. Macdonald, pastor. Mrs. Stuart sang with much feeling "Go Bring Thy Sorrow," accompanied by Miss Gladys Kerr. There were many beautiful floral tributes. Interment was made in the Millet cemetery.

The pallbearers were Messrs. J. West, F. Pinyon, E. Kinchella, L. P. Wright, G. Wolf and J. R. K. Graham.

10 YEARS FOR HORSE STEALING

After a search extending for more than a year, Nick Pawluk, horse thief, was apprehended by Constable Ross of the Willingham detachment of the Alberta provincial police and when brought before Judge Dubuc at Fort Saskatchewan Saturday, was given ten years in Prince Albert penitentiary, one of the heaviest sentences for horse stealing during the past decade in this province. Pawluk faced seven charges and pleaded guilty to them all.—Vegreville Observer.

Banana Cream Pie With Meringue

3/4 cup hot milk, 1/2 cup sugar, 1 tablespoon butter, 2 egg yolks, 1/3 cup flour, 3 bananas, 2 egg whites, 1/4 teaspoon vanilla, 2 tablespoons sugar, 1 baked piecrust shell. Scald milk in double boiler. Cream together the sugar and butter. Beat in the egg yolks and flour. Add to milk, and cook until thickened, stirring constantly. Peel and scrape the bananas. Have your pastry shell ready. Spread with a layer of the cream then a layer of sliced bananas, alternating the two layers, with the top layer of cream. Whip the egg whites with 2 tablespoons of sugar until frothy and dry. Add vanilla. Spread over the pie and brown the meringue in the oven.

A Brazilian surgeon, needing an operation for hernia, coolly entered the operating room and performed it on himself, using novocain. He kept his nerve and his serenity throughout, and the operation was a success. A good idea to apply to the spiritual surgery which most of us require. Have you need for the excision of a fault or a sin? Don't wait for any one else. Cut it out yourself.

The latest census of India shows that there are no fewer than 222 vernacular languages in that country. The number of different castes run into the thousands. There are over fifty million "untouchables" with whom no other caste may associate in any way.

ANGELICAN CHURCH
Service every Sunday at 3 p.m.
Sunday school, 2 p.m.
Holy Communion at 10 a.m., the 2nd Sunday in every month, as well as the afternoon service.

WIESENFORD W.I.

The regular monthly meeting of the Wiesenford W.I. was held May 2nd at Mrs. T. Atkinson's, with eleven members and one visitor. The roll call was answered with suggestions for thrift problems and some very good ideas were exchanged by the members.

Several business letters were read and discussed, and it was decided that the sewing demonstration is to be held June 10th at Mrs. T. Brennan's, and all members are to be prepared to take advantage of this course and be present.

Mrs. T. Atkinson was elected delegate to attend the W.I. Conference to be held in Edmonton from May 28th to the 31st.

A very good demonstration of thrift problems was given by Mrs. Wm. Burdon, and an interesting paper read by Mrs. Pulcher on Provincial Legislation, followed by a brief outline of the constitution of our own Institute.

To conclude the meeting Miss Beatrice Atkinson sang a lullaby in her very pleasing manner, which was greatly enjoyed by everyone. Then a luncheon was served by the hostess, Mrs. Atkinson, and a pleasant hour spent in conversation.

The next meeting will be held at Mrs. Geo. Beach's, June 6th, for which an interesting program has been arranged.

INTERESTING MOVIES

DRAW GOOD CROWD

A very interesting and instructive series of moving pictures was shown on Friday evening in Pinyon's hall, by the International Harvester Co., under the auspices of Scharff Bros. local agents. A large number of people attended and the pictures were thoroughly enjoyed, lots of fun mixed with valuable hints on how to value and take proper care of farm equipment. Good demonstrations of International machinery in action were given. The pictures were of a high quality and the International Harvester Co. is to be congratulated on carrying out this idea in recommending greater care of implements and farm buildings, as well as for the advertising value of this novel event.

TO HOLD SCHOOL FAIR

The school fair, so popular in this district up to three years ago, is being revived, and arrangements have been made to hold a fair in Millet this year. An invitation is extended to all schools in the district to join up, and already nine have done so. All applications for supply of seeds will be promptly attended to by Mr. L. P. Wright, secretary-treasurer of Millet S.D. It is to be hoped that much interest will be taken in this enterprise by teachers, pupils and trustees, and make this a big event this fall.

Teacher: "If your brother has five apples and you take two from him, what will be the result?"
Johnny: "He will beat me."

WISE AND OTHERWISE

Millionaire (speaking to a body of students): "All my success, all my financial prestige, I owe to one thing alone—pluck, pluck, pluck."
Student: "But how are we to find the right people to pluck?"

A very small boy was trying to load a big St. Bernard up the road.
"Where are you going to take that dog, my little man?" enquired a passerby.
"I'm going to see—where he wants to go first," was the breathless reply.—United Presbyterian.

"Willie," said his mother, "I wish you would run across the street and see how old Mrs. Brown is this morning."
A few minutes later Willie returned and reported:
"Mrs. Brown says it's none of your business how old she is."—Boys' Life.

IN THUNDERSTORM

Teach the children to come into the house for shelter from thunderstorms; to keep away from open doors and windows and chimneys as reasonable precautions just as they would move out of the way of an automobile or a jet of steam but do not frighten them. Teach them to keep away from single trees or those that stand higher than others in the woods, to lie down flat in the middle of a field rather than take shelter under the one tree nearby or touch or take shelter under wire fences.

Children easily understand sensible directions. They do not need to be scared by all sorts of horrors. You have only to think of the people who cover in fright and shake with nervous horror over even the thought of a thunderstorm and you will realize what it will mean to your children to be free of such fear.—M.M.

***"The Greyhound Limited," with Monte Blue at the throttle, is what you will see at the Angus Theatre on Friday and Saturday of this week. This is one of the finest pictures of the year. We have a matinee every Saturday at 2:30.

***Anyone having clothes for the W.C.T.U. rummage sale, please leave with Mrs. Mellett or phone 55.

***The Willing Workers of St. Andrew's Presbyterian church will hold a tea and food sale at Lively's on Saturday, June 8th, from 3 to 6 p.m.

***Do not miss seeing Colleen Moore in one of her snappiest pictures, "Why Be Good," at the Angus Theatre on Monday and Tuesday, May 13 and 14. "Joy Tonic" and News complete the program.

***The Altar Society of the R.C. Church will hold a rummage sale on the east side of the track on Saturday, May 11th.

***The Women's Missionary Society will hold a tea and sale of home cooking and garden plants on Saturday, May 18.

***For action, mystery, melodrama and appealing romance, "The First Kiss" is second to none. Fay Wray and Gary Cooper are the stars, showing at the Angus Theatre on Wednesday and Thursday, May 15 and 16. Local Artists are on the stage every Wednesday in a thirty-minute program.

***The Ladies' Aid of First United Church will hold their annual Carnation Tea next Saturday afternoon, May 11th. There will be hot house and paper carnations for sale.

U.F.A. SUNDAY JUNE 16

U.F.A. Sunday will be celebrated this year on June 16. Many Locals throughout the Province hold special meetings on U.F.A. Sunday each year, with speakers from their own membership or outside, to consider the religious aspect of U.F.A. work, the connection between the principles of the U.F.A. and the Christianity and kindred topics. Often several Locals combine for a big meeting, and sometimes these meetings are held outdoors and are preceded by picnic lunches.

CARD OF APPRECIATION

Mr. and Mrs. Jacob Jabs and family wish to thank their many neighbors and friends for the pleasant surprise given them on Sunday last, prior to their leaving the Brightview district to take up their residence at Fairview, Alberta.

WETASKIWIN CONVENTION

The annual convention of Wetaskiwin U.F.A. Federal Constituency Association will be held in Lacombe, on June 20th and 21st. A U.F.W.A. conference will be held on the morning of the 20th.

The Times does commercial printing at right prices.
